SHIPS presumes that Education is not the learning of facts, but the training of the mind to imagine. Imagination is the gateway to creativity. We cannot do anything creative without engaging our imagination.

Imagination is the heart of a child's holistic and cognitive development. Children learn a lot by imaginative ways. Without imagination, you live in a small room with the windows closed. Imagination opens the windows and shows us landscapes, horizons that we would not perceive otherwise.

## Holistic Development

IMPORTANCE & MEANING

**“Education cannot be effective, unless it helps a child open up himself to life.”**

**-Maria Montessori**

Holistic development essentially means the development of intellectual, mental, physical, emotional and social abilities in a child so that he or she is capable of facing the demands and challenges of everyday life.

We, at SHIPS, provide a wide range of co-scholastic and sports activities, which will help a child to develop:

- Confidence
- Compassion
- Find and gross motor coordination
- Responsibility
- Creativity
- Problem-solving skills
- And many other skills.

And as a parent, you can do wonders to support your child's growth.
